PROFESSIONAL SUMMARY

Senior Java Backend Developer with 4.6 years of experience developing and maintaining backend services across telecom, networking, smart-city, log-management, and mobile device-management domains. Skilled in Java, Spring Boot, REST APIs, Microservices, MongoDB, PostgreSQL, and Apache Kafka. Experienced in API development, production troubleshooting, database query work, event-processing workflows, and collaboration with frontend, QA, and engineering teams.

TECHNICAL SKILLS

Programming: Java, Java EE, SQL, Data Structures
Backend & APIs: Spring Boot, Spring, Hibernate, Microservices, REST APIs, API Gateway
Security & Identity: JWT, Keycloak, Encryption, RADIUS/TACACS+
Databases: MongoDB, PostgreSQL, SQL, NoSQL
Messaging & Logging: Apache Kafka, Syslog Monitoring, Log Management
Testing: JUnit, Mockito, Unit Testing, Integration Testing
Tools & Platforms: Git, Eclipse, IntelliJ IDEA, Linux, AWS S3
Ways of Working: Agile, Scrum
Domain Knowledge: Mobile Device Management (iOS/Android), Network Authentication, Telecom, Smart City

PROFESSIONAL EXPERIENCE

Senior Java Backend Developer | Advantal Technologies Ltd | *Jul 2022 – Sep 2026*

- Develop and maintain Java/Spring Boot backend services across telecom, networking, smart-city, syslog/log-management, and mobile device-management projects.
- Design and maintain REST APIs for frontend applications and internal/external service integrations.
- Work on centralized syslog and log-monitoring workflows for collecting, processing, searching, and analyzing network-device events.
- Contribute to AAA network access-control functionality using RADIUS/TACACS+ protocols, including authentication, authorization, and accounting workflows.
- Develop backend APIs and workflows for mobile-device enrollment, policy enforcement, and compliance tracking.
- Support database schema design, SQL query development, and data access using PostgreSQL and MongoDB.
- Troubleshoot backend performance and production issues; collaborate with frontend, QA, and engineering team members.
- Write and maintain unit/integration tests using JUnit and Mockito, and provide technical guidance to junior developers.

Senior Java Backend Developer | Xtranet Technologies Private Limited | *Nov 2021 – Mar 2022*

- Developed backend services for an e-commerce platform and implemented REST APIs for frontend/backend communication.
- Worked on database query optimization and backend efficiency improvements.
- Participated in code reviews and provided guidance to junior developers.
- Project: HEG-SALARY — salary management system for an organization.

SELECTED PROJECTS

SYSLOG / LOG-MANAGER | *Java, Spring Boot, MongoDB, Kafka*

- Worked on centralized collection and monitoring of network-device logs, supporting event search and analysis.
- Supported troubleshooting of high-volume ingestion, message publishing/consumer processing, database queries, and archival/export workflows.

MDM — MOBILE DEVICE MANAGEMENT | *Java, Spring Boot, REST APIs, NanoMDM*

- Worked on backend workflows for iOS device enrollment, policy management, and managed-device integration.
- Contributed to device-management APIs and organization-based enrollment integration.

AAA — RADIUS/TACACS+ | *Java, Spring Boot, RADIUS/TACACS+*

- Worked on authentication, authorization, and accounting workflows for network devices and users.
- Supported policy enforcement and accounting/audit data handling.

CGNAT / NETWORK | *Java backend, networking integrations*

- Worked on processing accounting information received from BNG and leaf network devices and sharing data with a mediation system.

CITIZEN ENABLEMENT PORTAL (CEP / NEC) | *Java backend, REST APIs*

- Contributed to backend functionality for citizen complaints routed to the Integrated Command and Control Centre (ICCC), along with admin-portal backend tasks.

COOEE — TELECOMMUNICATIONS | *Java backend, REST APIs*

- Worked on backend functionality related to calling, SMS, and subscription-plan features.

EDUCATION

B.E. — Computer Science & Engineering | RGPV, Bhopal | Jun 2014 – Jun 2017
Engineering Diploma — Information Technology | RGPV | Jul 2011 – Jun 2014

LANGUAGES

Hindi, English
